

**CENTRAL NEW YORK AIACNY  
LUNCH AND LEARN**

***Paragon***

**Porcelain Tile.....Leed....ing to Design Sustainability**

Program will cover the current ANSI 137.1 classifications for the production of ceramic tile. We discuss coming changes in the ANS 137.1 for tile classifications, both technical and physical differences. Attendees will learn how to select the proper flooring materials based on reviewing test results such as ASTM abrasion resistance, hardness, water absorption & static coefficient of friction (COF) tests./ Ends with data for porcelain tile pertaining to LEEDS.

Presenters: Sarah McCarthy/ Jim Caron
